

HONDA

The COVID-19 pandemic is impacting the lives of our customers, communities and neighbors. Given the serious and rapidly-changing nature of this situation, the most important concern for Honda Engines is the health and safety of our customers, dealers, and employees.

If your Honda Engines product requires **repair** or **maintenance**, many states consider small engine repair facilities as essential services. For this reason, many dealers remain open. However, this is a rapidly changing situation, so we recommend contacting your dealer before visiting in person to verify their status.

We hope you'll join us in protecting the health of our families and communities by following the advice of the Centers for Disease Control (CDC) and your local health authorities.

Together we will make it through these challenging times.

Stay safe,

Honda Engines
